

Public Health Intern –AID Aurora – Summer & Fall 2021

Public Health Interns will have a program customized to their interests and education by rotating through selected departments at AID, as developed with their supervisor and the school's requirements. Depending upon their rotations, interns may gain exposure and practical experience in: assisting with learning opportunities, working with individuals in various settings, client program implementation and trainings, assisting with internal activities of quality assurance and enhancement at AID, compiling reports of health outcomes data for clients in BH and DD services; maintaining reports and records for compliance with applicable federal, state and accreditation standards, data collection, organizing, analyzing and maintaining record management, needs analysis, development and implementation of health related programs for clients with intellectual and developmental disabilities, human resources, nutrition and dietetics for clients, OSHA and safety, resource development, public relations, communications and special events and projects. Must be enrolled in an undergraduate or graduate level public health degree program.

Please apply online at:
