

**Degree Insurance** is the first product in the U.S. that can guarantee a graduate's earnings in the 5 years after college. College is an investment. We make sure you're getting what you paid for. For example: If we guarantee that your graduates make \$42,000 a year in the 5 years after they finish, and they don't -- they simply share their tax returns with us, and we'll pay them the difference. It couldn't be simpler. College works. You know it. We know it. And know (only in Illinois) we can guarantee it.
