

Peer Mentoring Program Applications Available Through June 22

June 6, 2018

ACI member colleges and universities have until Friday, June 22, to apply to host [Peer Mentoring Program](#) teams. Up to two campuses will be selected by June 29 to join the institutions already hosting ACI's Peer Mentoring Program. Each new campus will receive funds to host two teams of five mentees and one mentor, engaging a total of 24 students on the two campuses.

In 2017-18, ACI's Peer Mentoring Program served 132 students on nine campuses. Data documenting the results of the program through June 2018 will be available in the next 30 days, with data documenting spring-to-fall retention of 2017-18 freshmen mentees available in late fall 2018.

The Peer Mentoring Program application was distributed in mid-May to more than 50 individuals at 16 ACI campuses not currently hosting mentor-mentee teams. Faculty and staff at ACI colleges and universities who did not receive the request for proposal and are interested in applying for the program should contact Director of Special Projects Leslie Millenson at lmillenson@acifund.org.
