

## Work and Life Skills Boot Camp Set for Sept. 24

Sept. 1, 2021

Presenters will address boot camp participants via Zoom webinar.

Registration for ACI's Fall [Work and Life Skills Boot Camp](#) launches this week. Scheduled for Friday, Sept. 24, these virtual workshops on Zoom will offer sessions on modernized resume' writing, investing "pocket change" in the stock market, micro-internships and career mentoring. A Q&A panel was added to the agenda which will allow student attendees to explore the minds of other young professionals and early career launchers from Citi.

Work and Life Skills Boot Camps are held semiannually, in fall and spring and are exclusively for students attending ACI member colleges and universities. While these sessions are open to all ACI students, there is an emphasis on first-generation, low-income and other underserved student populations to help fill information and networking gaps that other students may not experience.
